HOW I WORK

01 | We agree the brief: Formats, mood, key shots and posting schedule — decided together before I arrive, aligned with your vision.

02 | I stay as a guest: The best content comes from genuinely experiencing a place. I live the experience, then I shoot it.

03 | I create the set: Curated photography plus reels and TikToks, shot and edited in a warm, organic style true to your vision.

04 | You receive & reuse: A ready-to-use set for your own channels, plus content shared with my audience.
